## WEB DEVELOPER & DATA ENTRY SPECIALIST

Bukidnon, Philippines | ericalenton35@gmail.com | www.linkedin.com/in/eric-alenton

BSIT graduate with hands-on experience in web development, database management, and administrative records management gained through work at the Provincial Human Resource Management Office (PHRMO). Developed a Human Resource Management System (HRMS) using Laravel, PHP, MySQL, and Bootstrap. Skilled in data entry, records management, and technical support. Seeking entry-level Web Developer, IT Support, Data Entry, or Administrative Assistant opportunities.

### WORK EXPERIENCE

#### IT Staff / Data Management

Provincial Human Resource Management Office (PHRMO) — Bukidnon — Present

- Managed and organized sensitive employee records, HR documentation, and administrative data with high accuracy.
- Handled daily data entry tasks and ensured all digital and physical personnel files were up-to-date and correctly formatted.
- Assisted in general office operations and provided technical support for office hardware and software.
- Execute daily data entry tasks for personnel and payroll files, ensuring all records are up-to-date, secure, and correctly formatted.

#### IT Intern

Provincial Human Resource Management Office (PHRMO) — Bukidnon 2026

- Developed and deployed a production-ready Human Resource Management Data System (HRMS) to digitize employee records, attendance, and payroll data.
- Streamlined office workflows by transitioning manual data entry processes into a centralized digital database using PHP, Laravel, and MySQL.

### EDUCATION

#### Bachelor of Science in Information Technology | Bukidnon State University | 2021 – 2026

- Capstone Project: IoT-Based Smart Tracking System for Dementia Patients
- Engineered a full-stack web and mobile application to provide real-time location tracking data for patients.
- Designed the database architecture and managed real-time data synchronization utilizing Firebase.
- Developed the mobile application interface and integrated IoT sensor data using Android Studio and Laravel.

### SKILLS

- Web Development: PHP, Laravel, HTML5, CSS3, JavaScript, Bootstrap
- Database Management: MySQL, Firebase, MongoDB
- Tools & Platforms: Android Studio, Git/GitHub, MS Office Suite (Excel, Word), Google Workspace, Canva
- Data Entry & Admin: High-volume Data Entry, Record Management, Data Accuracy & Cleansing, Document Formatting
